Local Content in Tendering-Workshop: (The date is on the Booking Form below).

The revised Preferential Procurement Policy Framework Act Regulations of 2017 clearly stipulates that the Department of Trade & Industry (DTI) has the regulatory mandate to designate 'industries, sectors and sub-sectors for local production at a specified level of local content'. The Regulations further instruct that "only locally produced goods, services, works or locally manufactured goods, with a stipulated minimum threshold for local production and content" must be considered where a designated sector has been declared by the DTI. Organs of state may include the stipulation, even where no such sector has been designated per se.

Ever since the introduction of the Local Content and Production regulations, both organs of state and bidders have struggled with its correct interpretation and application through the required Forms that must be completed to meet the required compliance levels as stipulated. A workshop, with the full focus on how to complete the required schedules and annexures required when Local Content and Production is applicable, has now been designed to assist bidders with the correct completion thereof.

The Workshop will render a full background as to the specific and applicable Regulations on Local Content and Production, focusing on the following aspects:
